Designed for Enterprise

SL2 Docs was designed from the ground up specifically for the enterprise, with all the sharing and usability enterprise users demand without sacrificing security and control.

- Syncs Notes and Tasks with Microsoft Exchange
- Information remains secure in Microsoft Exchange
- Integrated with major EMM vendors: BlackBerry, Microsoft Endpoint Manager (Intune), and MobileIron (Acquired by Ivanti)
- No new servers to maintain or configure
- Easy to deploy - user settings and policies managed by EMM
- Authenticates with EMM
- Secure VPN-less connectivity to Exchange on premise or Office 365
- Data leakage policies are enforced

Makes your life manageable when you synchronize your tasks with Exchange / Office 365

SL2 Docs helps you organize your flagged emails, to do items and daily tasks and synchronizing them with Microsoft Exchange Server. You can easily create tasks, reminders and projects for organization and productivity and find anything easily with the powerful search tool.

A simple space to collaborate

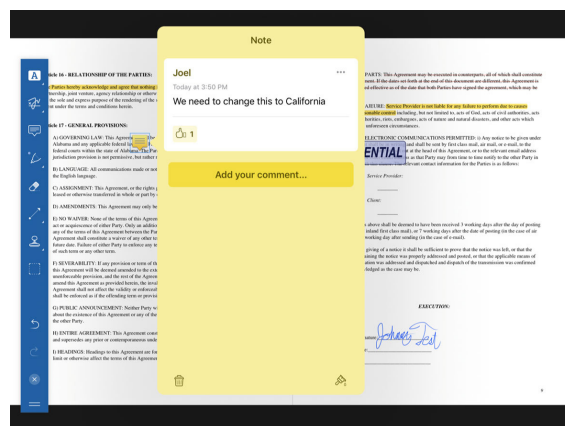

A shared virtual meeting space for every meeting keeps all the team's information in one place, easy for everyone to access. SL2 Docs makes it easy to navigate the Outlook meeting schedule by agenda view, take meeting notes with near real time sharing and take action items and assign them to attendees. Action items and notes are synced with Outlook and users are integrated to manage and complete their assigned action item, while the Calendar seamlessly works with Outlook.

Convert business cards into Outlook contacts

Contacts takes the chaos out of business cards so that you never have to fumble through a stack again. Instead SL2 Docs scans and recognizes business cards automatically, automatically detects language, creates a contact automatically in Outlook and syncs with Outlook and Exchange.

Find, Read and Edit email attachments

No more searching through a long list of emails with SL2 Docs. Powerful search tools let you quickly locate that hidden attachment and desktop quality PDF editing lets you collaborate on your mobile device so that you can read large PDFs with ease, annotate and comment on PDF documents, reply to other users' comments and annotations, fill out PDF forms easily, just tap a field and start typing, sign and return documents and scan paper documents, receipts and photos into PDFs.

SL2 Docs PDF Editor delivers a desktop quality PDF editing solution to read large PDFs with ease, annotate and comment on PDF documents, reply or approve others' comments, fill out PDF forms easily and sign and return documents.
